

OC TECH Enterprise L.L.C

Computer Service ensure your computers and network perform at optimal levels at all times. Our computer maintenance and service plans provide proactive and preventative solutions for maintaining all of your computer systems. We have service plans tailored to fit your needs, whether it be for small and mid-sized businesses that need IT Support, or for individual computer users working from their home office that need monthly maintenance.

Business Computer Maintenance and Service Plan

Our Business Computer Service Plan provides Orange County area businesses a computer systems specialist responsible for keeping systems performing at optimal levels. Our proactive service approach prevents most computer system problems from arising, but if a problem arises, technicians can be on-site the very same day to get systems up and running to minimize downtime.

Our Business Computer Service Plan offers the following services:

- Computer systems specialist assigned to your business
- Priority service
- On-site service and support
- Remote service and support
- Email and phone support
- Same-day service
- Low hourly rate for additional hours
- 30% discount for services not included in the service plan
- Data backup and security
- Monthly maintenance and updates
- Regular scans for virus and spyware
- Virus removal
- Spyware removal
- Optional system monitoring and maintenance
- Guaranteed response times
- Monthly reports of our activity
- Monthly report of your system performance
- Consultations about implementing new products and tools that can help your business

Business Computer Service Plans start from \$149 a month.
